

Make Better Things Faster: A Steel Thread Workbook

The project I want to get traction on is:

Where & how I've gotten stuck on this project:

The basic elements of a complete version of this project are:

Some of my questions and areas of difficulty for this project are:

Make Better Things Faster: A Steel Thread Workbook

Steel Thread

Scope: What's the thinnest version of each basic element for this steel thread?

Tasks: On the next page, itemize tasks for each step above. Include time estimates.

Time-box: How much time will you give yourself for this steel thread?
(When in doubt, go with 1 week.)

Demo: Schedule a live demo with at least 1 person.

Who will you demo to?	
Where?	
When?	

Checklist

- Tasks & time estimates
- Demo on the calendar
- Demo attendees invited
