

BOTANY ONE

News and Views on Plant Biology and Ecology

**We want to spread plant science
across the world - will you help us?**

Botany One is the social media presence of the 'Annals of Botany' nonprofit organisation. We publish commentaries, news stories, summaries of research papers, careers advice, science communication how-to's, interviews, conference reports and articles about the human side of plant science. Subscribe to our mailing list to receive a digest of 'The Week in Botany' every Monday at: <http://www.botany.one/email/>.

We are always looking for guest contributors, no matter what career stage - from students to professors. We welcome submissions for short articles (300-700 words), long reads (1500-3000 words) and other multimedia materials like videos or podcasts. We also offer short work experiences for undergraduate and postgraduate students with an interest in science communication and social media. For more information, please email editor@botany.one, or contact us on social media.
