

Learning from Place: Building Pathways Toward Nature-Based Solutions

Frida Sánchez

German-American Nature-Based Solutions
Exchange – GANBASE

pocacito

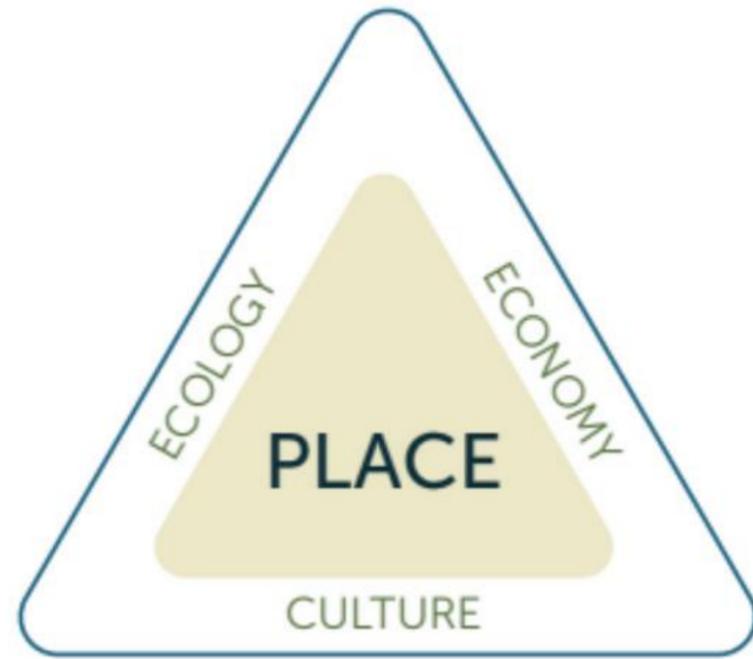

How the region looks like nowadays...

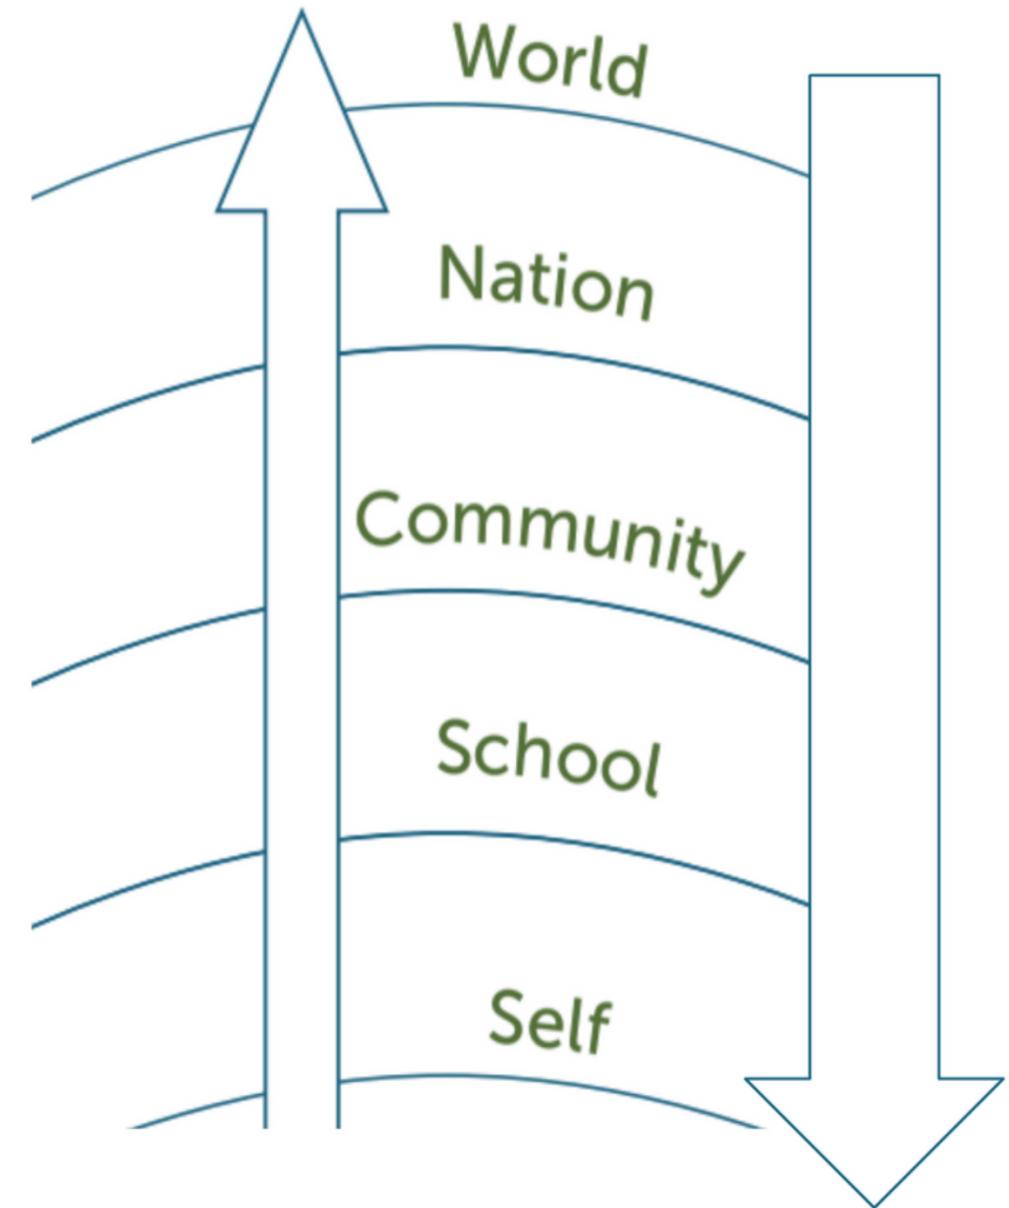

Places are very powerful!

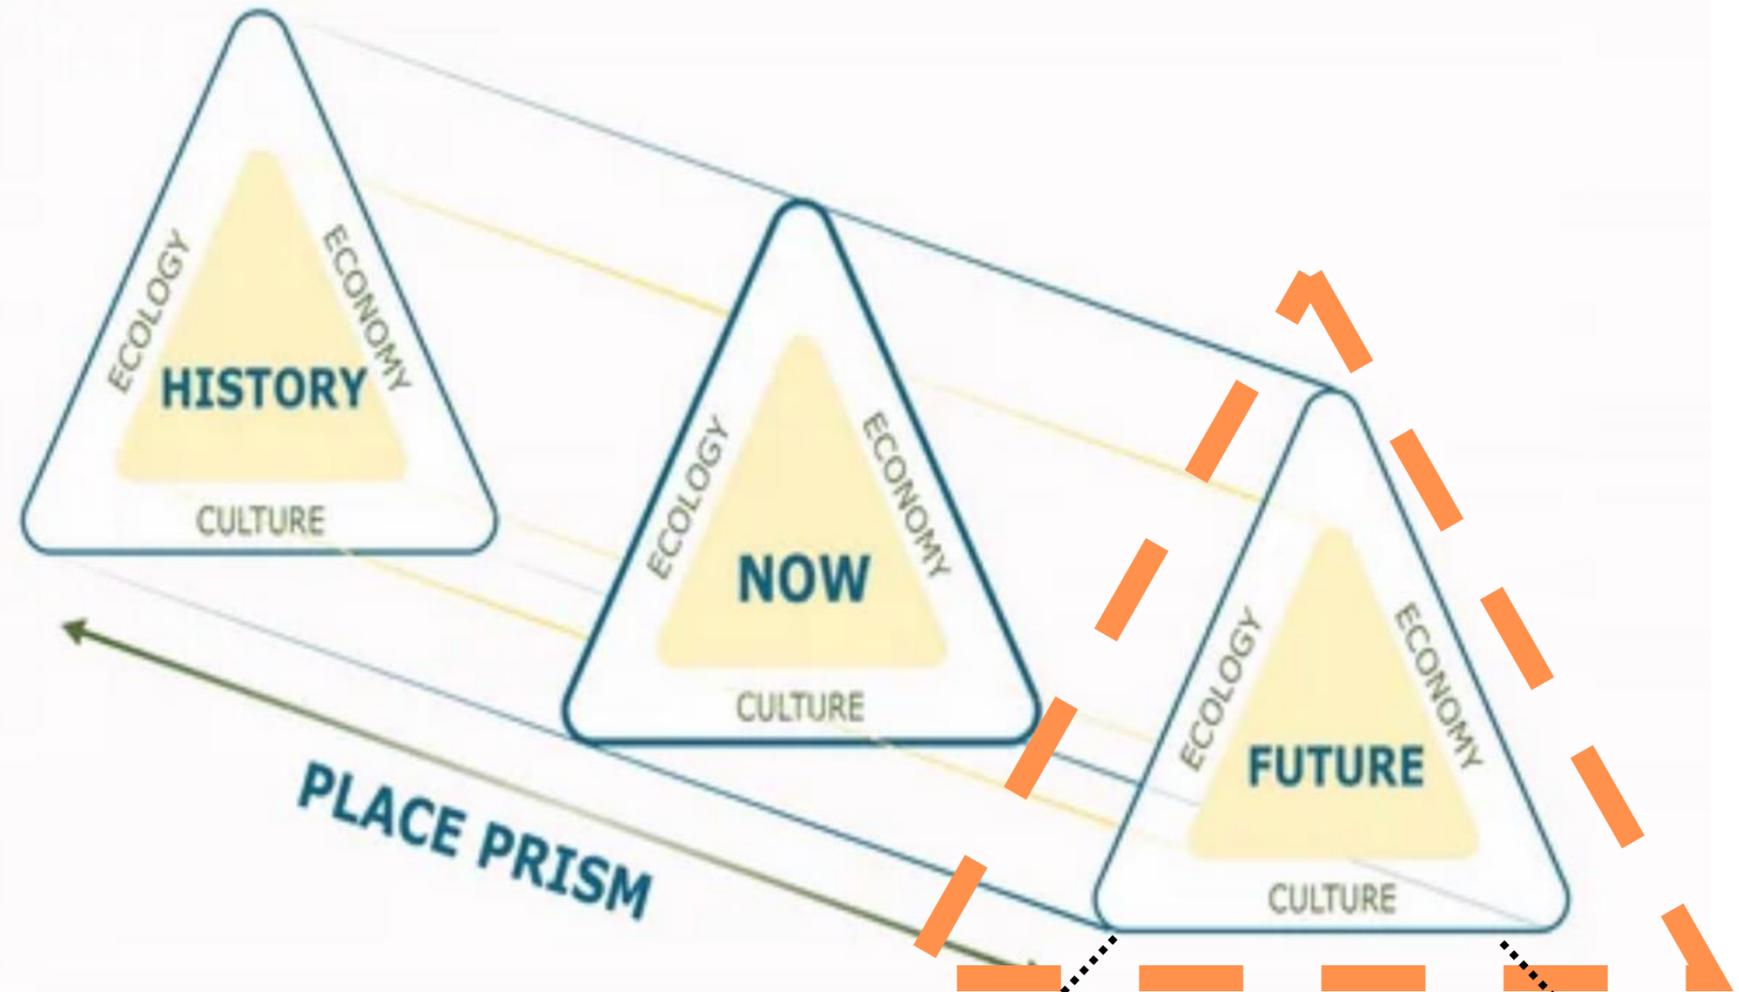

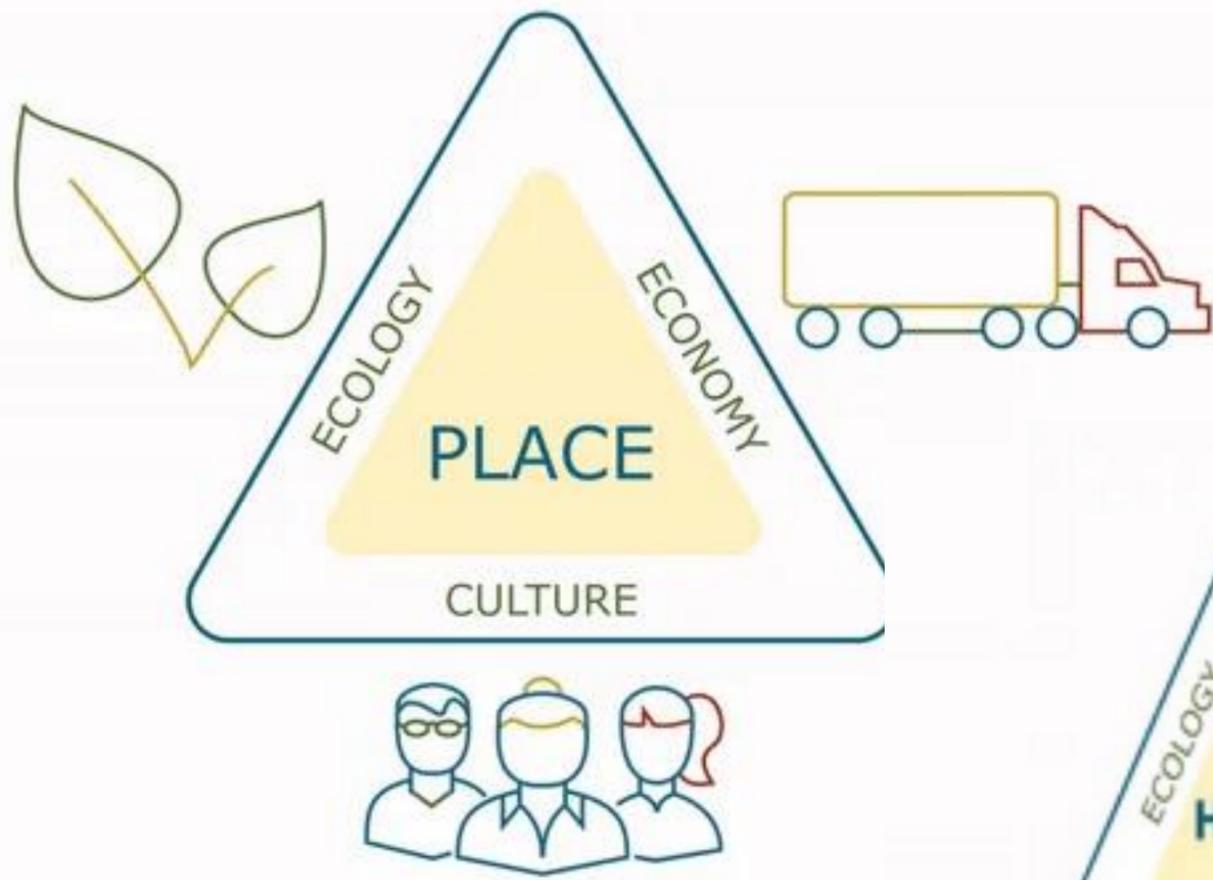

**Why wouldn't we want
to use our places to
learn and teach?**

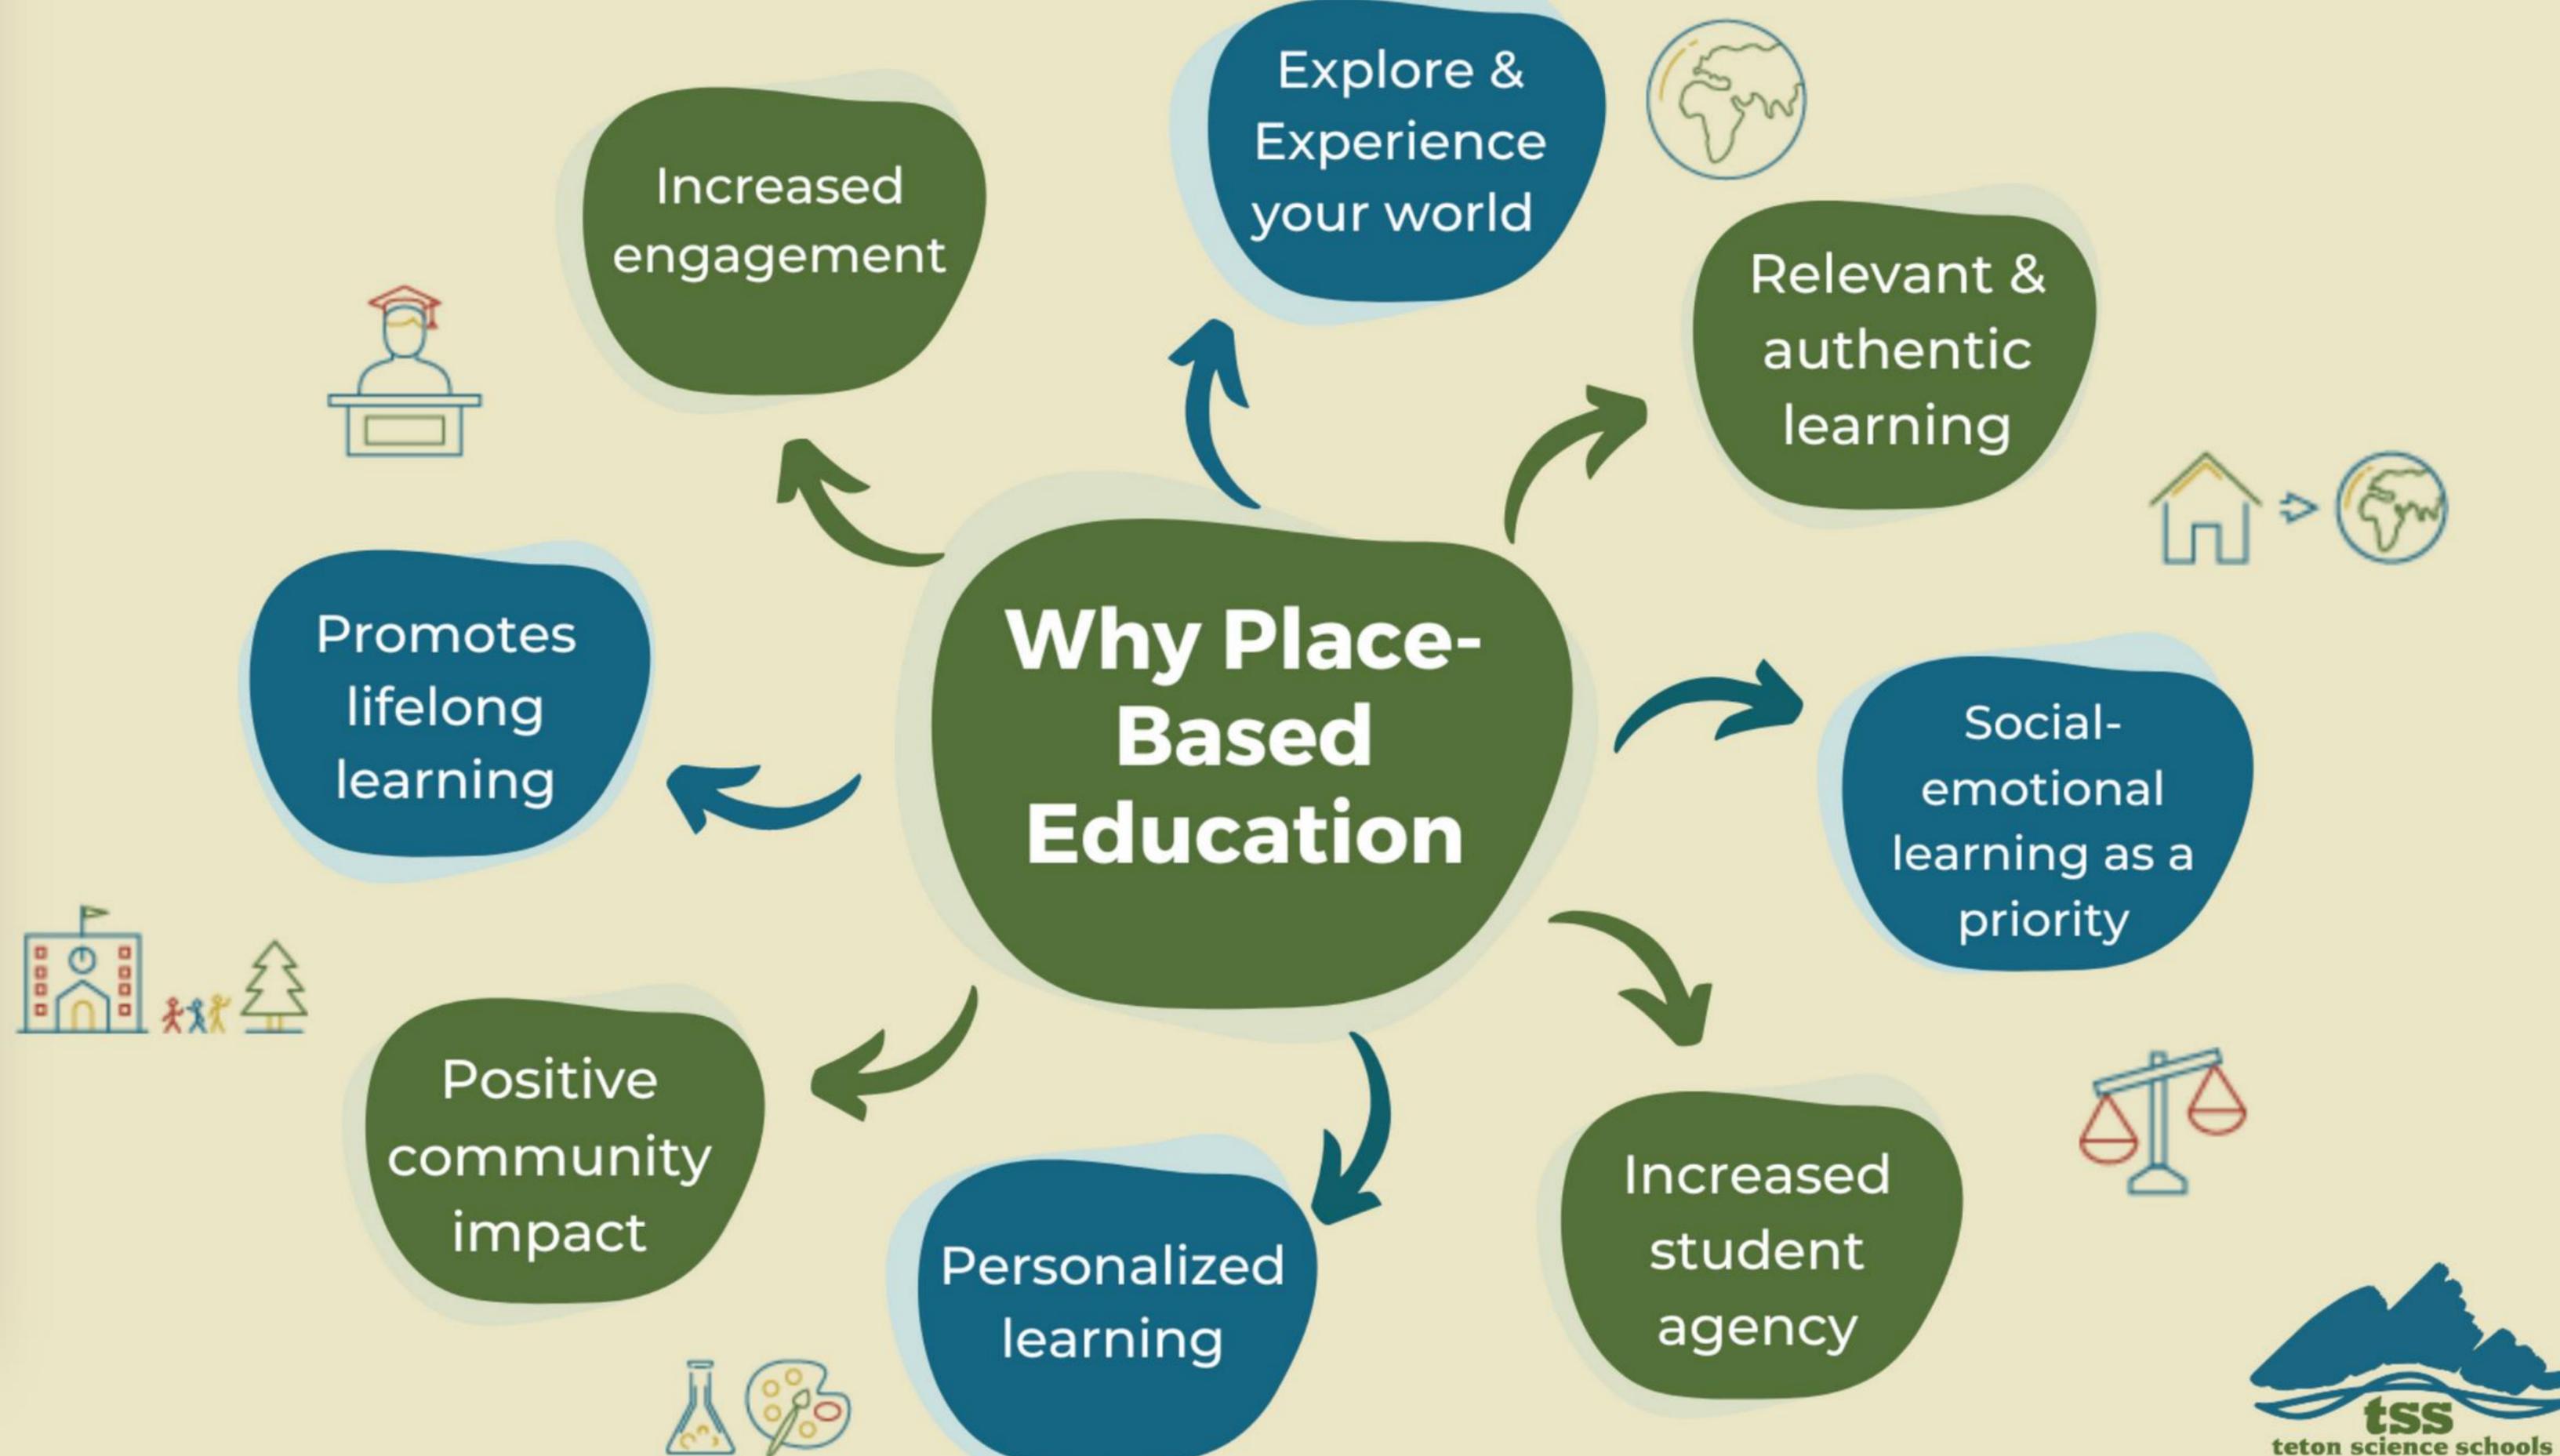

Our approach is place-based, connecting learners and communities to increase engagement, learning and community impact.

**Blue and green
economies**

**Nature Based
Solutions**

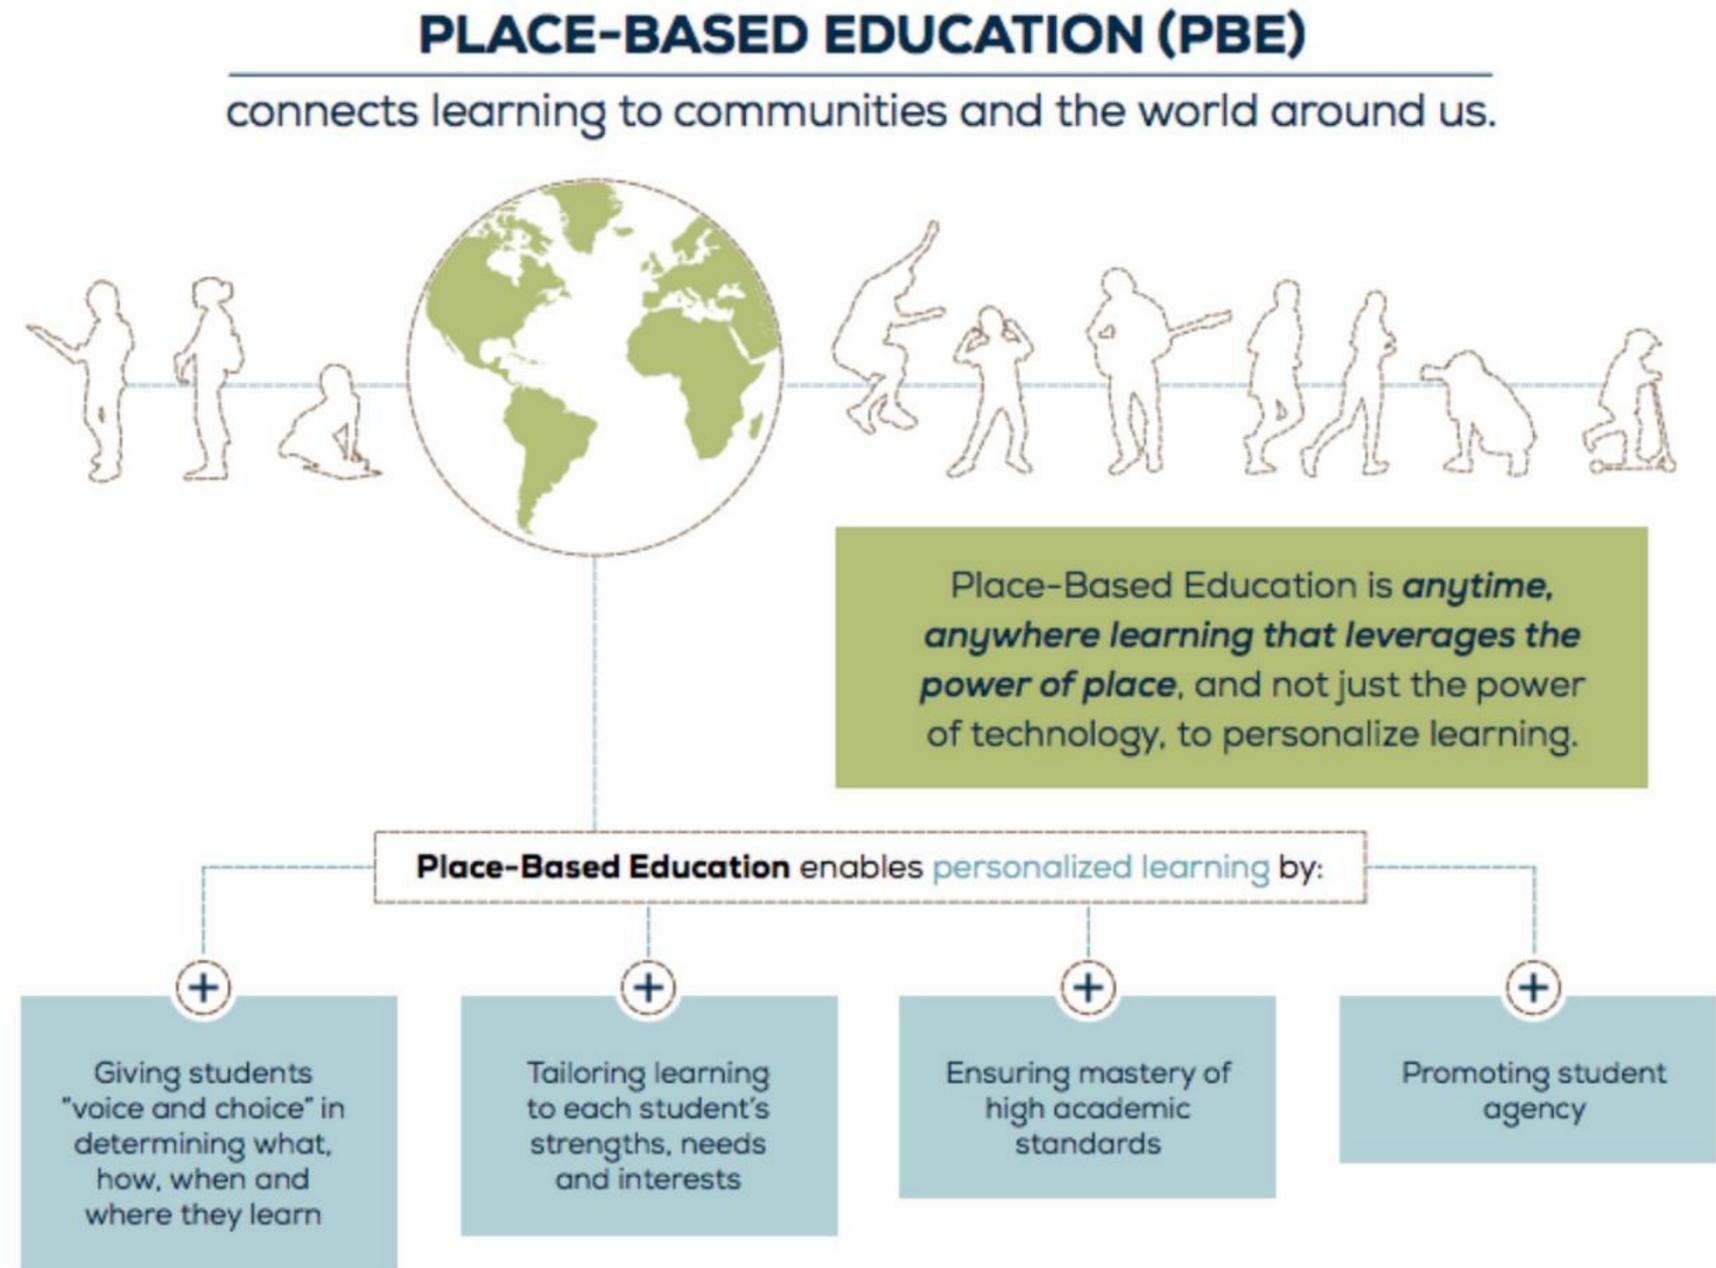

Why place matters?

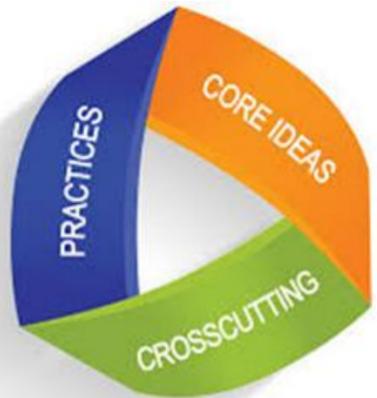

3 things to know about Place-Based Education:

1. It's nothing new
2. It connects learners to their communities and the world around them
3. It's anytime, anywhere learning

Professional Development for Educators

Through PBE, we can design learning experiences that strengthen the link between people and place, empowering communities to understand, care for, and co-create nature-based solutions for a more resilient future

Thank you!
