

Reflections: Germany GANBASE June 2025

*GANBASE – Gulf Coast
10 October 2025*

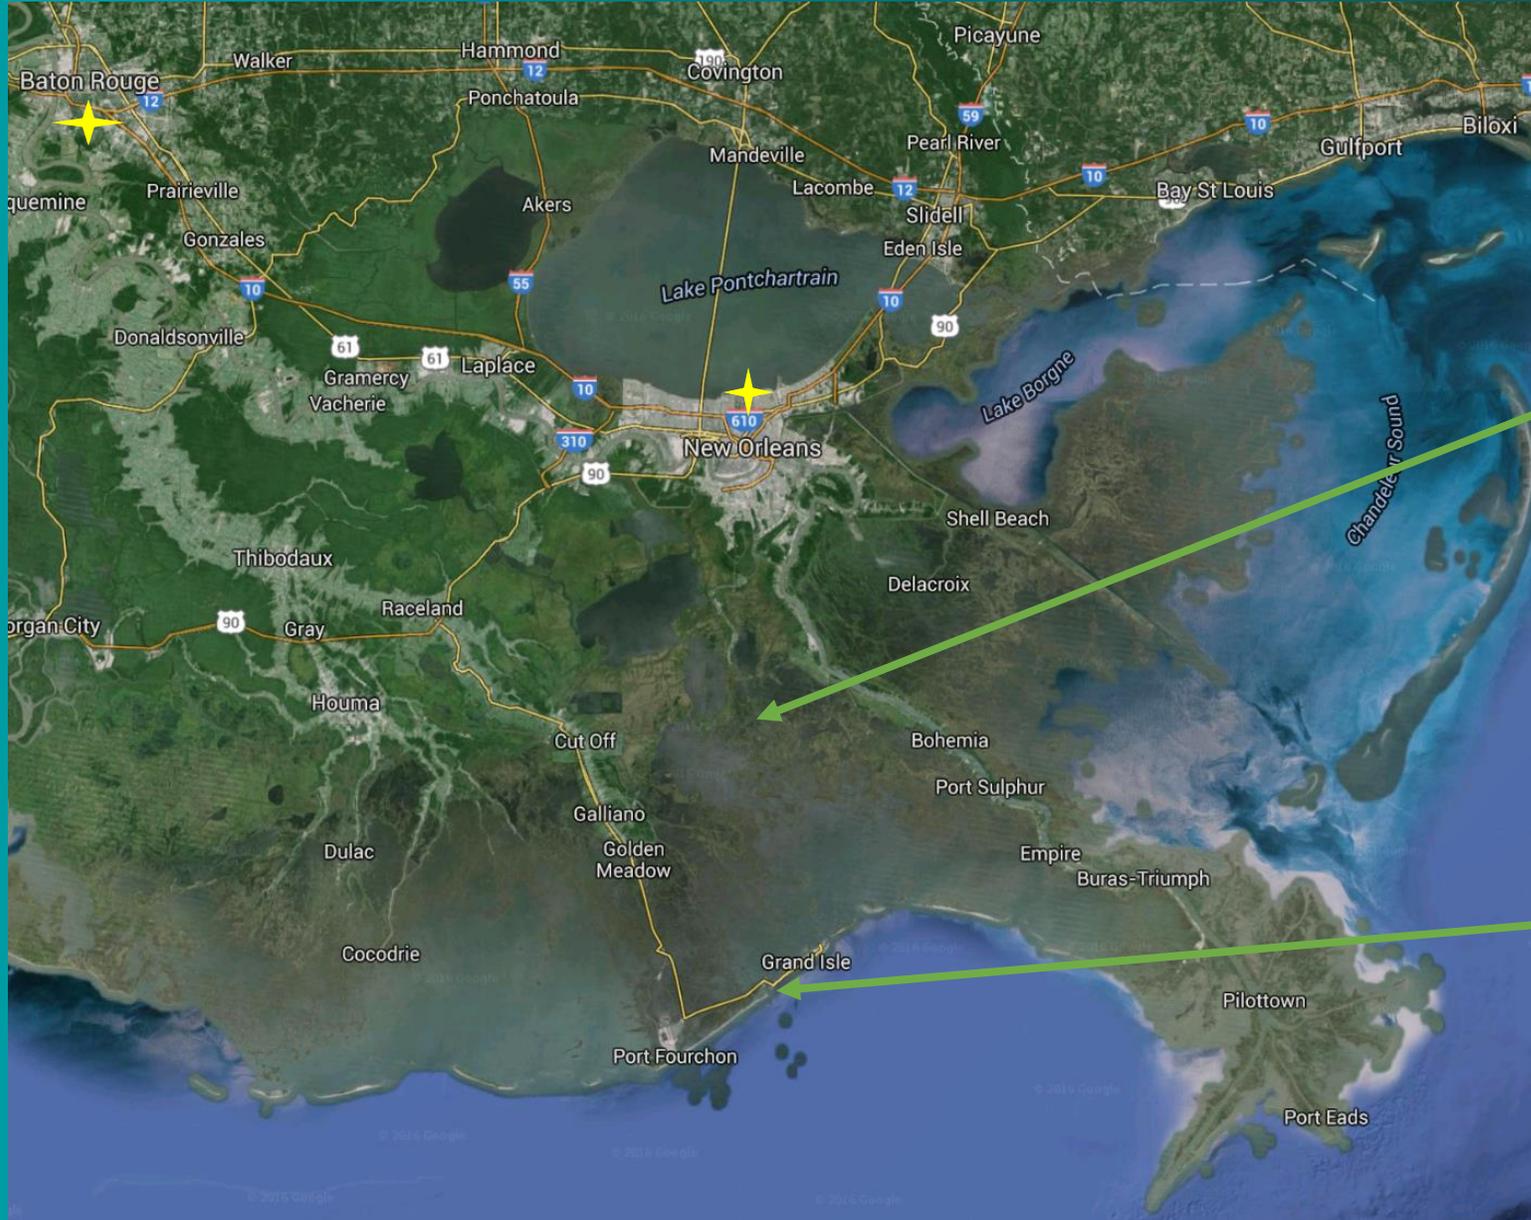

Corey T. Miller
Community Engagement Director
Ponchartrain Conservancy

**Ponchartrain
Conservancy**

About me

WHO WE ARE

Pontchartrain Conservancy is a non-profit organization consisting of a board of directors representing Basin parishes and regulatory agencies.

Our **Vision** is an environmentally sustainable, prosperous, and resilient region.

Our **mission** is to drive environmental sustainability and stewardship through scientific research, education, and advocacy.

OUR PROGRAMS

SCIENCE

We use applied scientific research and participatory action to improve water quality in the basin and to promote the coastal integrity upon which the region depends.

COMMUNITY

Scientific knowledge is the foundation for how we develop innovative environmental curriculum to educate students and train teachers, conduct community science, provide outreach to empower residents to get involved in addressing coastal issues, and engage officials and the public to support legislation and actions that invest in practical and sustainable outcomes.

SCIENCE is what we do, COMMUNITY is why we do it!
