Re: *Response to Letter Dated November 18, 2025*

Dear Mr. Singer:

We are in receipt of your November 18 letter. Both the Department of Law and Department of Education & Early Development are committed to enforcing and defending all of Alaska's laws—from the rules governing public officials to the United States Constitution itself. We take this role seriously, and our previous concerns were not about the specific physical document, but rather the district's policies and processes that led to a disclaimer concerning the Constitution. We really do appreciate the school district's desire to review their processes and take corrective action, and we genuinely commend the district for this. Our office remains available to assist with the review, but at your option. You can coordinate with Senior Advisor Sharla Mylar (sharla.mylar@alaska.gov) if further assistance is desired.

Sincerely,

Stephen J. Cox
Attorney General

cc: Commissioner Deena Bishop, DEED
