

CPC Practice Test #5

- 100 Full-Length Questions
- 4 Hours to Complete
- Have Questions? Explanations Included

Check out all 5 of our Full-Length Practice tests and our Practice Tool at medicalcodingace.com/practice.

Ready to get started?

Make sure you have your reference books:

- [CPT Professional and E/M Reference \(AMA\)](#)
- [ICD-10-CM Codebook \(AMA\)](#)
- [HCPCS Level II Codebook \(AMA/AAPC\)](#)

TEST BEGINS ON NEXT PAGE
ANSWER KEY AT END

Medical Coding Ace

Welcome to *YOUR* practice test!

Whatever is the right way for you to take this test is the right way.

And remember to use your tabs, take breaks, and drink water.
You got this!

Good luck!

*Any questions, feedback, requests for the future, or
corrections?*

*Send an email to medicalcodingace@gmail.com, and we'll get
back to you right away!*

something to share with a friend!*

TIMER START

4 HOURS

Medical Coding Ace

1. A patient presents with a superficial foreign body in the cornea of the left eye. What CPT code is used to represent the removal of this foreign body?

- A. 65205
- B. 65210
- C. 65220
- D. 65222

2. A surgeon performs a turbinate surgery, specifically a submucous resection. Which CPT code describes this procedure?

- A. 30000
- B. 30001
- C. 30100
- D. 30130

3. Which CPT code corresponds to the excision of a malignant lesion on the scalp, neck, hands, feet, or genitals with a diameter of 0.5 cm?

- A. 11600
- B. 11601
- C. 11602
- D. 11603

4. Which CPT code is used for the incision and drainage of a deep abscess or hematoma, muscle, or fascia?

Medical Coding Ace

- A. 20005
- B. 20000
- C. 20100
- D. 20150

5. The term 'osteopenia' refers to:

- A. Increased bone density
- B. Decreased bone density
- C. Normal bone density
- D. Absence of bone

6. A patient is diagnosed with a mild recurrent major depressive disorder, single episode. Which ICD-10-CM code best describes this diagnosis?

- A. F32.00
- B. F32.01
- C. F32.1
- D. F33.0

7. Which CPT code represents a biopsy of an external ear lesion?

- A. 69100
- B. 69105
- C. 69110
- D. 69120

Medical Coding Ace

8. 'Dysphagia' is a term that describes:

- A. Difficulty swallowing
- B. Difficulty speaking
- C. Difficulty breathing
- D. Difficulty hearing

9. Which HCPCS Level II code represents an infusion of Remicade, which is administered for conditions like Crohn's disease?

- A. J1745
- B. J1750
- C. J1755
- D. J1760

10. A patient is seen in the emergency department for a detailed examination and medical decision making of moderate complexity. Which CPT code is suitable?

- A. 99281
- B. 99282
- C. 99283
- D. 99284

11. A patient presents with a soft tissue abscess in the abdominal wall, which needs incision and drainage. Which CPT code should be used?

Medical Coding Ace

- A. 20005
- B. 20000
- C. 20100
- D. 20150

12. Which CPT code is used for the removal of a foreign body embedded in the wrist, requiring an incision?

- A. 20200
- B. 20205
- C. 20206
- D. 20225

13. Which CPT code corresponds to a mammography, bilateral?

- A. 77066
- B. 77067
- C. 77068
- D. 77069

14. A surgeon performs a thyroidectomy with limited neck dissection for malignancy. Which CPT code represents this procedure?

- A. 60240
- B. 60252
- C. 60260

Medical Coding Ace

D. 60270

15. A patient undergoes an excision of a malignant lesion of the face measuring 1.1 cm. Which CPT code best represents this procedure?

A. 11640

B. 11641

C. 11642

D. 11643

16. Which CPT code is used for the removal of a foreign body from the nose, without the need for an incision?

A. 30300

B. 30310

C. 30320

D. 30330

17. Which CPT code is used for an office or other outpatient visit for a new patient, which requires a detailed history, detailed examination, and medical decision making of low complexity?

A. 99201

B. 99202

C. 99203

D. 99204

Medical Coding Ace

18. Which CPT code describes a thyroid stimulating hormone (TSH) test?

- A. 84443
- B. 84445
- C. 84446
- D. 84450

19. Which CPT code corresponds to the drainage of a finger abscess?

- A. 10060
- B. 10061
- C. 26010
- D. 26011

20. The term 'hyperglycemia' refers to:

- A. Low blood sugar level
- B. Normal blood sugar level
- C. High blood sugar level
- D. Blood without sugar

21. Which CPT code corresponds to the removal of a foreign body embedded in the muscle of the arm, without making an incision?

- A. 10120
- B. 10121

Medical Coding Ace

- C. 10140
- D. 10180

22. A patient is fitted with a below-the-knee prosthesis following an amputation. Which HCPCS Level II code corresponds to this prosthetic device?

- A. L5631
- B. L5637
- C. L5645
- D. L5650

23. A patient requires decompression of the fascia for a condition called compartment syndrome in the arm. Which CPT code describes this procedure?

- A. 20000
- B. 20001
- C. 20002
- D. 20003

24. When a bilateral condition is encountered and the medical documentation does not specify whether it's bilateral or there isn't a combined bilateral code available, how should it be coded?

- A. Code it as bilateral
- B. Code each condition separately
- C. Use the unspecified code

Medical Coding Ace

D. Query the provider

25. Which organization oversees the implementation of the Merit-based Incentive Payment System (MIPS) and the Alternative Payment Model (APM) incentive?

- A. The Department of Health and Human Services
- B. The Centers for Disease Control and Prevention
- C. The Centers for Medicare & Medicaid Services
- D. The World Health Organization

26. The Stark Law, also known as the Physician Self-Referral Law, prohibits physicians from referring patients for certain services to an entity in which they have what?

- A. A professional disagreement
- B. A financial relationship
- C. A close friendship
- D. A prior patient relationship

27. A patient undergoes a computed tomography (CT) scan of the abdomen and pelvis, with contrast material. Which CPT code is suitable for this procedure?

- A. 74177
- B. 74178
- C. 74179
- D. 74180

Medical Coding Ace

28. A patient visits a specialist after noticing a gradual hearing loss. Which type of physician specializes in conditions related to the ears and hearing?

- A. Ophthalmologist
- B. Dermatologist
- C. Otolaryngologist
- D. Rheumatologist

29. Which HCPCS Level II code represents a nebulizer, a device used to administer medication in the form of a mist that's inhaled into the lungs?

- A. A7000
- B. A7003
- C. A7005
- D. A7010

30. A surgeon performs a suture of a small laceration in the mouth, about 2.5 cm. Which CPT code represents this procedure?

- A. 41120
- B. 41130
- C. 41140
- D. 41150

Medical Coding Ace

31. Which U.S. federal legislation ensures that when workers lose or change their jobs, they can still obtain health coverage?

- A. Affordable Care Act (ACA)
- B. Clinical Laboratory Improvement Amendments (CLIA)
- C. Health Insurance Portability and Accountability Act (HIPAA)
- D. Medicare Access and CHIP Reauthorization Act (MACRA)

32. A patient undergoes aspiration of a cyst of the thyroid. Which CPT code represents this procedure?

- A. 60100
- B. 60101
- C. 60200
- D. 60201

33. A patient requires excision of a lesion from the tongue, measuring 1.5 cm. Which CPT code describes this procedure?

- A. 41108
- B. 41110
- C. 41112
- D. 41115

34. Which CPT code corresponds to the drainage of a nasal abscess using an external approach?

- A. 30000

Medical Coding Ace

- B. 30001
- C. 30100
- D. 30120

35. A patient comes in with a chief complaint of chest pain. The final diagnosis is non-cardiac chest pain. Which ICD-10-CM code represents this diagnosis?

- A. R07.1
- B. R07.2
- C. R07.3
- D. R07.9

36. A surgeon performs an incision and drainage of a pilonidal cyst. Which CPT code describes this procedure?

- A. 10080
- B. 10081
- C. 20090
- D. 20091

37. What does the term 'cholangiogram' refer to?

- A. X-ray of the bile ducts
- B. X-ray of the liver
- C. Examination of the gallbladder
- D. Study of liver enzymes

Medical Coding Ace

38. A patient undergoes a radical thyroidectomy for malignancy, with unilateral modified radical neck dissection. Which CPT code is suitable for this procedure?

- A. 60252
- B. 60254
- C. 60260
- D. 60270

39. Which CPT code describes a parathyroidectomy or exploration of the parathyroid?

- A. 60240
- B. 60252
- C. 60254
- D. 60260

40. A patient undergoes excision of a malignant lesion on the lip, measuring 1.2 cm. Which CPT code describes this procedure?

- A. 40490
- B. 40500
- C. 40510
- D. 40520

41. Which CPT code corresponds to a comprehensive ophthalmological service, including a general evaluation of a new patient?

Medical Coding Ace

- A. 92002
- B. 92004
- C. 92012
- D. 92014

42. Which CPT code represents a comprehensive nursing facility assessment for a new or established patient which includes a comprehensive history, comprehensive examination, and medical decision making of high complexity?

- A. 99304
- B. 99305
- C. 99306
- D. 99307

43. Which CPT code is used for the incision and drainage of an abscess of the skin, subcutaneous?

- A. 10060
- B. 10061
- C. 11055
- D. 11056

44. A patient is diagnosed with a closed fracture of the shaft of the right femur. Which ICD-10-CM code best describes this condition?

Medical Coding Ace

- A. S72.301A
- B. S72.302A
- C. S72.309A
- D. S72.391A

45. A patient undergoes an enzyme analysis for alanine amino transferase (ALT). Which CPT code is suitable for this test?

- A. 84460
- B. 84478
- C. 84480
- D. 84481

46. A patient undergoes a biopsy of the nasal mucosa. Which CPT code describes this procedure?

- A. 30020
- B. 30021
- C. 30100
- D. 30120

47. A patient comes in with a benign lesion on the face measuring 0.7 cm in diameter. The dermatologist excises the lesion. Which CPT code represents this procedure?

- A. 11420
- B. 11421
- C. 11422
- D. 11423

Medical Coding Ace

48. Which of the following is a primary goal of the 'Health Information Technology for Economic and Clinical Health (HITECH) Act'?

- A. Promote the adoption and meaningful use of health information technology
- B. Regulate the prices of health services
- C. Standardize clinical procedures
- D. Ensure all Americans have health insurance

49. A patient is diagnosed with a benign neoplasm of the skin of the chest. Which ICD-10-CM code best describes this condition?

- A. D22.39
- B. D23.59
- C. D21.0
- D. D22.5

50. Which CPT code corresponds to the drainage of a nasal abscess using an intranasal approach?

- A. 30000
- B. 30001
- C. 30100
- D. 30120

Medical Coding Ace

51. Which CPT code describes anesthesia for a closed procedure on the radius or ulna?

- A. 01650
- B. 01652
- C. 01654
- D. 01656

52. A physician provides a 50-minute psychotherapy session with patient and family present. Which CPT code corresponds to this service?

- A. 90832
- B. 90834
- C. 90837
- D. 90847

53. Which CPT code describes the incision and drainage of an abscess on the arm, leg, or trunk?

- A. 10060
- B. 10061
- C. 10080
- D. 10081

54. Which CPT code corresponds to the removal of a foreign body from the mouth?

- A. 40808

Medical Coding Ace

- B. 40810
- C. 40812
- D. 40814

55. Which CPT code corresponds to a blood test for a complete blood count (CBC), automated (Hgb, Hct, RBC, WBC, and platelet count) without differential WBC count?

- A. 85027
- B. 85032
- C. 85034
- D. 85036

56. A patient receives an injection of Botox for severe underarm sweating. Which HCPCS Level II code is appropriate for the Botox injection?

- A. J0585
- B. J0586
- C. J0587
- D. J0588

57. What is the primary goal of the Health Insurance Portability and Accountability Act (HIPAA)?

- A. Ensuring access to health insurance
- B. Regulating health insurance prices
- C. Protecting patient health information
- D. Standardizing health insurance plans

Medical Coding Ace

58. A patient undergoes a diagnostic colonoscopy. Which CPT code best describes this procedure?

- A. 45378
- B. 45380
- C. 45382
- D. 45385

59. The term 'bradycardia' refers to:

- A. Rapid heartbeat
- B. Slow heartbeat
- C. Irregular heartbeat
- D. Normal heartbeat

60. A patient undergoes anesthesia for a procedure on the bony pelvis. Which CPT code represents anesthesia for this procedure?

- A. 01210
- B. 01214
- C. 01215
- D. 01220

61. Which CPT code is used for the incision and drainage of a peritonsillar abscess?

- A. 42700

Medical Coding Ace

- B. 42720
- C. 42725
- D. 42730

62. A patient undergoes a culture of aerobic bacteria; definitive identification and susceptibility studies for a specific organism. Which CPT code represents this procedure?

- A. 87077
- B. 87078
- C. 87079
- D. 87080

63. Which ICD-10-CM code is used for a patient diagnosed with a localized swelling, mass, or lump in the upper arm?

- A. R22.0
- B. R22.1
- C. R22.2
- D. R22.9

64. Which ICD-10-CM code corresponds to a patient diagnosed with a moderate sprain of the anterior cruciate ligament of the right knee?

- A. S83.511A
- B. S83.512A
- C. S83.513A

Medical Coding Ace

D. S83.514A

65. Which CPT code corresponds to an evaluation and management service for a 30-minute psychotherapy session?

A. 90832

B. 90834

C. 90836

D. 90838

66. A patient with diabetes receives a supply of blood glucose test strips. Which HCPCS Level II code pertains to these test strips?

A. A4253

B. A4255

C. A4256

D. A4259

67. A patient with known type 2 diabetes comes in with a complaint of numbness in his feet. He is diagnosed with diabetic peripheral neuropathy. Which ICD-10-CM code corresponds to this diagnosis?

A. E11.9

B. E11.40

C. E11.41

D. E11.59

Medical Coding Ace

68. What does the 'False Claims Act' primarily target in the healthcare setting?

- A. Quality of care provided
- B. Discrimination in healthcare
- C. Upcoding and unbundling of services
- D. Patient data breaches

69. Which CPT code corresponds to the removal of foreign body from the back or flank, subcutaneous?

- A. 20200
- B. 20205
- C. 20206
- D. 20225

70. A patient undergoes a magnetic resonance imaging (MRI) of the brain, without contrast material, followed by contrast material(s) and further sequences. Which CPT code represents this MRI procedure?

- A. 70552
- B. 70553
- C. 70554
- D. 70555

71. Which CPT code corresponds to the incision and drainage of an abscess or cyst of the palate or uvula?

Medical Coding Ace

- A. 41000
- B. 41005
- C. 41010
- D. 41015

72. The 'mitral valve' is located in which organ?

- A. Lungs
- B. Liver
- C. Brain
- D. Heart

73. Which CPT code describes an X-ray examination of the knee, with a minimum of four views?

- A. 73562
- B. 73564
- C. 73565
- D. 73566

74. Which organ produces bile that helps in the digestion of fats?

- A. Pancreas
- B. Liver
- C. Spleen
- D. Kidney

Medical Coding Ace

75. According to the ICD-10-CM coding guidelines, when a patient has both an acute and a chronic condition, and both have separate subentries in the index but the guideline requires a code from each, which should be sequenced first?

- A. Acute condition
- B. Chronic condition
- C. Both can be sequenced as primary
- D. Depends on physician documentation

76. In the ICD-10-CM, what does the placeholder 'X' in a code mean?

- A. The code is unspecified
- B. The code needs a 7th character extension
- C. The code is a temporary code
- D. The code is invalid

77. A patient is provided with a basic manual wheelchair for mobility due to a leg injury. Which HCPCS Level II code corresponds to this device?

- A. K0001
- B. K0002
- C. K0003
- D. K0004

78. A physician performs a preventive medicine evaluation and counseling for an individual including an age and gender

Medical Coding Ace

appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of appropriate immunization(s), laboratory/diagnostic procedures for a patient aged 40-64 years. Which CPT code represents this service?

- A. 99385
- B. 99386
- C. 99387
- D. 99388

79. According to the ICD-10-CM guidelines, which of the following is NOT a reason to use an external cause code?

- A. To describe the cause of an injury
- B. To explain the intent of an injury
- C. To provide additional information about the patient's lifestyle
- D. To describe where the patient was when the injury occurred

80. A patient requires anesthesia for a procedure on the anterior trunk. Which CPT code corresponds to this service?

- A. 00400
- B. 00402
- C. 00404
- D. 00406

Medical Coding Ace

81. Which CPT code corresponds to the removal of an ectopic thyroid tissue, without thyroidectomy?

- A. 60271
- B. 60280
- C. 60281
- D. 60300"

82. Which term refers to the surgical removal of the appendix?

- A. Appendectomy
- B. Tonsillectomy
- C. Cholecystectomy
- D. Hysterectomy

83. A patient requires surgical treatment for a nasal vestibulitis. Which CPT code represents this procedure?

- A. 30020
- B. 30110
- C. 30140
- D. 30210

84. A surgeon performs a shave biopsy of a single lesion on a patient's leg. What is the CPT code for a lesion that measures 0.6 cm?

- A. 11305

Medical Coding Ace

B. 11306

C. 11307

D. 11308

85. A patient is diagnosed with an unspecific viral hepatitis without hepatic coma. Which ICD-10-CM code represents this condition?

A. B19.20

B. B19.21

C. B19.10

D. B19.9

86. A patient undergoes a biopsy of the floor of the mouth. Which CPT code describes this procedure?

A. 41100

B. 41105

C. 41108

D. 41110

87. A surgeon performs the removal of a foreign body embedded in the hand, without making an incision. Which CPT code should be used?

A. 10120

B. 10121

C. 10140

D. 10160

Medical Coding Ace

88. For outpatient coding, when a patient has a condition that is both acute and chronic and there are separate subentries for both in the index, which one should be sequenced first?

- A. Acute condition
- B. Chronic condition
- C. It depends on the provider's documentation
- D. Both can be sequenced as primary

89. 'Nephropathy' is a term that refers to:

- A. Lung disease
- B. Liver disease
- C. Kidney disease
- D. Heart disease

90. Which part of the brain is responsible for balance and coordination?

- A. Cerebellum
- B. Cerebrum
- C. Medulla oblongata
- D. Thalamus

91. A patient diagnosed with obstructive sleep apnea is prescribed a continuous positive airway pressure (CPAP) device. Which HCPCS Level II code pertains to this equipment?

Medical Coding Ace

- A. E0601
- B. E0610
- C. E0620
- D. E0630

92. Which CPT code describes anesthesia for a closed procedure on the humerus or elbow?

- A. 01630
- B. 01634
- C. 01636
- D. 01638

93. The 'ulna' is a bone located in the:

- A. Hand
- B. Foot
- C. Leg
- D. Arm

94. A patient required a total thyroid lobectomy with removal of a single isthmus. Which CPT code corresponds to this procedure?

- A. 60210
- B. 60212
- C. 60220
- D. 60225

Medical Coding Ace

95. A patient undergoes a biopsy of a soft tissue tumor in the upper arm, deep. Which CPT code represents this procedure?

- A. 20206
- B. 20205
- C. 20225
- D. 20226

96. A patient is diagnosed with acute sinusitis due to streptococcus. Which ICD-10-CM code corresponds to this condition?

- A. J01.00
- B. J01.81
- C. J01.90
- D. J02.0

97. A surgeon performs a simple repair of a 2.5 cm wound on the neck. Which CPT code should be used?

- A. 12011
- B. 12013
- C. 12014
- D. 12015

98. A dermatologist performs a biopsy on a suspected melanoma lesion on a patient's arm. Which CPT code is used for a punch biopsy of the skin?

Medical Coding Ace

- A. 11104
- B. 11105
- C. 11106
- D. 11107

99. Which CPT code describes a hospital inpatient care service that typically involves a detailed interval history, a detailed examination, and medical decision making of moderate complexity?

- A. 99231
- B. 99232
- C. 99233
- D. 99234

100. Which ICD-10-CM code is used for a patient diagnosed with moderate non-proliferative diabetic retinopathy with macular edema, type 2 diabetes mellitus?

- A. E11.321
- B. E11.329
- C. E11.331
- D. E11.339

Answer Key

Use the [] boxes to mark your correct answers and count your score :).

Want to know why a particular answer was more correct? Explanations for every question are in the section after this, labeled "Explanations".

Passing score: 70 correct out of 100 questions total.

- [] 1. A. 65205
- [] 2. D. 30130
- [] 3. A. 11600
- [] 4. A. 20005
- [] 5. B. Decreased bone density
- [] 6. D. F33.0

Explanations

1. A patient presents with a superficial foreign body in the cornea of the left eye. What CPT code is used to represent the removal of this foreign body?

Answer: A. 65205

Explanation:

The CPT code 65205 represents the removal of a foreign body from the conjunctiva or cornea without slit lamp. The other codes are related to different procedures or involve the use of a slit lamp.

2. A surgeon performs a turbinate surgery, specifically a submucous resection. Which CPT code describes this procedure?

Answer: D. 30130

Explanation:

3. Which CPT code corresponds to the excision of a malignant lesion on the scalp, neck, hands, feet, or genitals with a diameter of 0.5 cm?

Medical Coding Ace

Answer: A. 11600

Explanation:

The CPT code 11600 is used for the excision of malignant lesions located on the scalp, neck, hands, feet, or genitals with a diameter of 0.5 cm or less.

4. Which CPT code is used for the incision and drainage of a deep abscess or hematoma, muscle, or fascia?

Answer: A. 20005

Explanation:

The CPT code 20005 represents the incision and drainage of a deep abscess or hematoma, involving the muscle or fascia.

5. The term 'osteopenia' refers to:

Answer: B. Decreased bone density

Explanation:

'Osteopenia' describes a level of bone density that is lower than normal peak density but not low enough to be classified as osteoporosis.

Medical Coding Ace

6. A patient is diagnosed with a mild recurrent major depressive disorder, single episode. Which ICD-10-CM code best describes this diagnosis?

Answer: D. F33.0

Explanation:

The ICD-10-CM code F33.0 is used for a major depressive disorder, recurrent, mild.

7. Which CPT code represents a biopsy of an external ear lesion?

Answer: A. 69100

Explanation:

The CPT code 69100 corresponds to a biopsy of an external ear lesion, including the auricle and external auditory canal.

8. 'Dysphagia' is a term that describes:

Answer: A. Difficulty swallowing

Explanation:

Medical Coding Ace

'Dysphagia' refers to the sensation of food sticking or getting hung up in the base of your throat or in your chest after you've started to swallow.

9. Which HCPCS Level II code represents an infusion of Remicade, which is administered for conditions like Crohn's disease?

Answer: A. J1745

Explanation:

The HCPCS Level II code J1745 corresponds to an injection of Infliximab, which is the generic name for Remicade. This medication is given intravenously to treat various autoimmune conditions, including Crohn's disease.

10. A patient is seen in the emergency department for a detailed examination and medical decision making of moderate complexity. Which CPT code is suitable?

Answer: C. 99283

Explanation:

The CPT code 99283 is used for an emergency department visit with a detailed examination and medical decision making of moderate complexity.

Medical Coding Ace

11. A patient presents with a soft tissue abscess in the abdominal wall, which needs incision and drainage. Which CPT code should be used?

Answer: C. 20100

Explanation:

The CPT code 20100 represents the incision and drainage of a soft tissue abscess in the abdominal wall.

12. Which CPT code is used for the removal of a foreign body embedded in the wrist, requiring an incision?

Answer: D. 20225

Explanation:

The CPT code 20225 represents the removal of a foreign body in the wrist (or other bone, except for the hands or feet) requiring an incision.

13. Which CPT code corresponds to a mammography, bilateral?

Answer: A. 77066

Explanation:

Medical Coding Ace

The CPT code 77066 represents a bilateral mammography.

14. A surgeon performs a thyroidectomy with limited neck dissection for malignancy. Which CPT code represents this procedure?

Answer: D. 60270

Explanation:

The CPT code 60270 is used for a thyroidectomy with limited neck dissection for malignancy.

15. A patient undergoes an excision of a malignant lesion of the face measuring 1.1 cm. Which CPT code best represents this procedure?

Answer: B. 11641

Explanation:

The CPT code 11641 is used for the excision of a malignant lesion of the face measuring 1.1 cm.

16. Which CPT code is used for the removal of a foreign body from the nose, without the need for an incision?

Answer: A. 30300

Medical Coding Ace

Explanation:

The CPT code 30300 represents the removal of a foreign body from the nose without making an incision.

17. Which CPT code is used for an office or other outpatient visit for a new patient, which requires a detailed history, detailed examination, and medical decision making of low complexity?

Answer: C. 99203

Explanation:

The CPT code 99203 is used for an office or outpatient visit for a new patient that requires a detailed history, detailed examination, and medical decision making of low complexity.

18. Which CPT code describes a thyroid stimulating hormone (TSH) test?

Answer: A. 84443

Explanation:

The CPT code 84443 represents a test for thyroid stimulating hormone (TSH).

Medical Coding Ace

19. Which CPT code corresponds to the drainage of a finger abscess?

Answer: C. 26010

Explanation:

The CPT code 26010 represents the drainage of a finger abscess.

20. The term 'hyperglycemia' refers to:

Answer: C. High blood sugar level

Explanation:

'Hyperglycemia' means an elevated level of blood sugar, typically found in diabetes.

21. Which CPT code corresponds to the removal of a foreign body embedded in the muscle of the arm, without making an incision?

Answer: A. 10120

Explanation:

Medical Coding Ace

The CPT code 10120 represents the removal of a foreign body from the soft tissues of areas like the arm, and it doesn't require an incision.

22. A patient is fitted with a below-the-knee prosthesis following an amputation. Which HCPCS Level II code corresponds to this prosthetic device?

Answer: B. L5637

Explanation:

The HCPCS Level II code L5637 represents a below-the-knee prosthesis. This prosthetic device helps individuals regain mobility and function after a below-the-knee amputation.

23. A patient requires decompression of the fascia for a condition called compartment syndrome in the arm. Which CPT code describes this procedure?

Answer: C. 20002

Explanation:

The CPT code 20002 represents the fasciotomy procedure for decompression due to compartment syndrome, specifically in the arm or leg, excluding the hand or foot.

Medical Coding Ace

24. When a bilateral condition is encountered and the medical documentation does not specify whether it's bilateral or there isn't a combined bilateral code available, how should it be coded?

Answer: B. Code each condition separately

Explanation:

When a bilateral condition is encountered and there's no specific bilateral code and the documentation doesn't specify, each condition should be coded separately.

25. Which organization oversees the implementation of the Merit-based Incentive Payment System (MIPS) and the Alternative Payment Model (APM) incentive?

Answer: C. The Centers for Medicare & Medicaid Services

Explanation:

The Centers for Medicare & Medicaid Services (CMS) is responsible for overseeing and implementing the Merit-based Incentive Payment System (MIPS) and the Alternative Payment Model (APM) incentive under the Quality Payment Program.

Medical Coding Ace

26. The Stark Law, also known as the Physician Self-Referral Law, prohibits physicians from referring patients for certain services to an entity in which they have what?

Answer: B. A financial relationship

Explanation:

The Stark Law prohibits physicians from referring Medicare patients for certain designated health services to an entity with which the physician or a close family member has a financial relationship, unless an exception applies.

27. A patient undergoes a computed tomography (CT) scan of the abdomen and pelvis, with contrast material. Which CPT code is suitable for this procedure?

Answer: A. 74177

Explanation:

The CPT code 74177 represents a CT scan of the abdomen and pelvis with contrast material.

28. A patient visits a specialist after noticing a gradual hearing loss. Which type of physician specializes in conditions related to the ears and hearing?

Answer: C. Otolaryngologist

Medical Coding Ace

Explanation:

An otolaryngologist, commonly known as an ENT (ear, nose, and throat) doctor, specializes in the diagnosis, treatment, and management of diseases and disorders of the ears, nose, throat, and related structures of the head and neck, including hearing loss.

29. Which HCPCS Level II code represents a nebulizer, a device used to administer medication in the form of a mist that's inhaled into the lungs?

Answer: B. A7003

Explanation:

The HCPCS Level II code A7003 is used for a disposable nebulizer, which is used to convert liquid medication into a mist, so it can be inhaled easily into the lungs.

30. A surgeon performs a suture of a small laceration in the mouth, about 2.5 cm. Which CPT code represents this procedure?

Answer: A. 41120

Explanation:

Medical Coding Ace

The CPT code 41120 is used for the suture of a laceration up to 2.5 cm in the mouth.

31. Which U.S. federal legislation ensures that when workers lose or change their jobs, they can still obtain health coverage?

Answer: C. Health Insurance Portability and Accountability Act (HIPAA)

Explanation:

The Health Insurance Portability and Accountability Act (HIPAA) contains provisions that ensure continuity of health coverage when employees lose or change jobs.

32. A patient undergoes aspiration of a cyst of the thyroid. Which CPT code represents this procedure?

Answer: A. 60100

Explanation:

The CPT code 60100 describes a biopsy or aspiration of a thyroid cyst.

33. A patient requires excision of a lesion from the tongue, measuring 1.5 cm. Which CPT code describes this procedure?

Medical Coding Ace

Answer: C. 41112

Explanation:

The CPT code 41112 represents excision of a lesion from the tongue without closure, measuring between 1.1 to 2.0 cm.

34. Which CPT code corresponds to the drainage of a nasal abscess using an external approach?

Answer: A. 30000

Explanation:

The CPT code 30000 represents the drainage of a nasal abscess using an external approach.

35. A patient comes in with a chief complaint of chest pain. The final diagnosis is non-cardiac chest pain. Which ICD-10-CM code represents this diagnosis?

Answer: B. R07.2

Explanation:

The ICD-10-CM code R07.2 denotes non-cardiac chest pain.

36. A surgeon performs an incision and drainage of a pilonidal cyst. Which CPT code describes this procedure?

Medical Coding Ace

Answer: A. 10080

Explanation:

The CPT code 10080 represents the incision and drainage of a pilonidal cyst; simple.

37. What does the term 'cholangiogram' refer to?

Answer: A. X-ray of the bile ducts

Explanation:

A 'cholangiogram' is an imaging test that looks at the bile ducts to see if they are blocked, narrowed, or dilated.

38. A patient undergoes a radical thyroidectomy for malignancy, with unilateral modified radical neck dissection. Which CPT code is suitable for this procedure?

Answer: A. 60252

Explanation:

The CPT code 60252 represents a radical thyroidectomy for malignancy with unilateral modified radical neck dissection.

Medical Coding Ace

39. Which CPT code describes a parathyroidectomy or exploration of the parathyroid?

Answer: A. 60240

Explanation:

The CPT code 60240 represents a parathyroidectomy or exploration of the parathyroid.

40. A patient undergoes excision of a malignant lesion on the lip, measuring 1.2 cm. Which CPT code describes this procedure?

Answer: A. 40490

Explanation:

The CPT code 40490 represents excision of a malignant lesion of the lip.

41. Which CPT code corresponds to a comprehensive ophthalmological service, including a general evaluation of a new patient?

Answer: B. 92004

Explanation:

Medical Coding Ace

The CPT code 92004 represents a comprehensive ophthalmological service for a new patient.

42. Which CPT code represents a comprehensive nursing facility assessment for a new or established patient which includes a comprehensive history, comprehensive examination, and medical decision making of high complexity?

Answer: C. 99306

Explanation:

The CPT code 99306 describes a comprehensive nursing facility assessment with the specified requirements.

43. Which CPT code is used for the incision and drainage of an abscess of the skin, subcutaneous?

Answer: A. 10060

Explanation:

The CPT code 10060 represents the incision and drainage of an abscess of the skin, specifically subcutaneous.

44. A patient is diagnosed with a closed fracture of the shaft of the right femur. Which ICD-10-CM code best describes this condition?

Medical Coding Ace

Answer: A. S72.301A

Explanation:

The ICD-10-CM code S72.301A represents a closed fracture of the shaft of the right femur.

45. A patient undergoes an enzyme analysis for alanine amino transferase (ALT). Which CPT code is suitable for this test?

Answer: A. 84460

Explanation:

The CPT code 84460 is used for an enzyme analysis for alanine amino transferase (ALT).

46. A patient undergoes a biopsy of the nasal mucosa. Which CPT code describes this procedure?

Answer: C. 30100

Explanation:

The CPT code 30100 represents a biopsy of the nasal mucosa.

Medical Coding Ace

47. A patient comes in with a benign lesion on the face measuring 0.7 cm in diameter. The dermatologist excises the lesion. Which CPT code represents this procedure?

Answer: A. 11420

Explanation:

The CPT code 11420 is used for the excision of benign lesions on the face, ears, eyelids, nose, or lips for lesions with a diameter of 0.5 cm or less. In this scenario, the size of the lesion is slightly over the specified size for this code, but it's the closest match.

48. Which of the following is a primary goal of the 'Health Information Technology for Economic and Clinical Health (HITECH) Act'?

Answer: A. Promote the adoption and meaningful use of health information technology

Explanation:

The primary goal of the Health Information Technology for Economic and Clinical Health (HITECH) Act is to promote the adoption and meaningful use of health information technology, particularly electronic health records. It provides financial incentives for healthcare providers to adopt and use these technologies.

Medical Coding Ace

49. A patient is diagnosed with a benign neoplasm of the skin of the chest. Which ICD-10-CM code best describes this condition?

Answer: A. D22.39

Explanation:

The ICD-10-CM code D22.39 represents a benign neoplasm of the skin of other parts of the face, which includes the skin of the chest.

50. Which CPT code corresponds to the drainage of a nasal abscess using an intranasal approach?

Answer: B. 30001

Explanation:

The CPT code 30001 represents the drainage of a nasal abscess using an intranasal approach.

51. Which CPT code describes anesthesia for a closed procedure on the radius or ulna?

Answer: A. 01650

Explanation:

Medical Coding Ace

The CPT code 01650 represents anesthesia for a closed procedure on the radius or ulna.

52. A physician provides a 50-minute psychotherapy session with patient and family present. Which CPT code corresponds to this service?

Answer: D. 90847

Explanation:

The CPT code 90847 represents a psychotherapy session with the patient and family present.

53. Which CPT code describes the incision and drainage of an abscess on the arm, leg, or trunk?

Answer: A. 10060

Explanation:

The CPT code 10060 represents the incision and drainage of an abscess, carbuncle, or simple or single cyst, located on the trunk, arm, or leg.

54. Which CPT code corresponds to the removal of a foreign body from the mouth?

Medical Coding Ace

Answer: B. 40810

Explanation:

The CPT code 40810 represents the removal of a foreign body from the mouth, vestibule, or lip.

55. Which CPT code corresponds to a blood test for a complete blood count (CBC), automated (Hgb, Hct, RBC, WBC, and platelet count) without differential WBC count?

Answer: A. 85027

Explanation:

The CPT code 85027 represents an automated CBC without a differential WBC count.

56. A patient receives an injection of Botox for severe underarm sweating. Which HCPCS Level II code is appropriate for the Botox injection?

Answer: A. J0585

Explanation:

The HCPCS Level II code J0585 is used for an injection of onabotulinumtoxinA, commonly known as Botox. This

Medical Coding Ace

treatment can be used for various conditions, including severe underarm sweating.

57. What is the primary goal of the Health Insurance Portability and Accountability Act (HIPAA)?

Answer: C. Protecting patient health information

Explanation:

The primary goal of the Health Insurance Portability and Accountability Act (HIPAA) is to protect the confidentiality and security of patient health information. It sets standards for the protection of health data and ensures patient rights over their health information.

58. A patient undergoes a diagnostic colonoscopy. Which CPT code best describes this procedure?

Answer: A. 45378

Explanation:

The CPT code 45378 is used for a diagnostic colonoscopy.

59. The term 'bradycardia' refers to:

Answer: B. Slow heartbeat

Medical Coding Ace

Explanation:

'Bradycardia' describes a slower than normal heart rate.

60. A patient undergoes anesthesia for a procedure on the bony pelvis. Which CPT code represents anesthesia for this procedure?

Answer: B. 01214

Explanation:

The CPT code 01214 is used for anesthesia during a procedure on the bony pelvis.

61. Which CPT code is used for the incision and drainage of a peritonsillar abscess?

Answer: A. 42700

Explanation:

The CPT code 42700 represents the incision and drainage of a peritonsillar abscess.

62. A patient undergoes a culture of aerobic bacteria; definitive identification and susceptibility studies for a specific organism. Which CPT code represents this procedure?

Medical Coding Ace

Answer: A. 87077

Explanation:

The CPT code 87077 describes the procedure for definitive identification and susceptibility studies for a specific organism in an aerobic bacterial culture.

63. Which ICD-10-CM code is used for a patient diagnosed with a localized swelling, mass, or lump in the upper arm?

Answer: C. R22.2

Explanation:

The ICD-10-CM code R22.2 is used for localized swelling, mass, or lump in the upper limb, which includes the upper arm.

64. Which ICD-10-CM code corresponds to a patient diagnosed with a moderate sprain of the anterior cruciate ligament of the right knee?

Answer: B. S83.512A

Explanation:

Medical Coding Ace

The ICD-10-CM code S83.512A represents a moderate sprain of the anterior cruciate ligament of the right knee.

65. Which CPT code corresponds to an evaluation and management service for a 30-minute psychotherapy session?

Answer: A. 90832

Explanation:

The CPT code 90832 represents a 30-minute psychotherapy session.

66. A patient with diabetes receives a supply of blood glucose test strips. Which HCPCS Level II code pertains to these test strips?

Answer: A. A4253

Explanation:

The HCPCS Level II code A4253 refers to blood glucose test or reagent strips. Diabetic patients use these strips with a glucometer to monitor their blood sugar levels regularly.

67. A patient with known type 2 diabetes comes in with a complaint of numbness in his feet. He is diagnosed with diabetic peripheral neuropathy. Which ICD-10-CM code corresponds to this diagnosis?

Medical Coding Ace

Answer: B. E11.40

Explanation:

The ICD-10-CM code E11.40 denotes type 2 diabetes mellitus with diabetic neuropathy, unspecified.

68. What does the 'False Claims Act' primarily target in the healthcare setting?

Answer: C. Upcoding and unbundling of services

Explanation:

The False Claims Act is a federal law that targets fraudulent billing practices in the healthcare setting, such as upcoding (billing for more expensive services than those actually provided) and unbundling (billing for each component of a service instead of using a single bundled code).

69. Which CPT code corresponds to the removal of foreign body from the back or flank, subcutaneous?

Answer: A. 20200

Explanation:

Medical Coding Ace

The CPT code 20200 represents the removal of a foreign body from the back or flank, specifically from the subcutaneous tissues.

70. A patient undergoes a magnetic resonance imaging (MRI) of the brain, without contrast material, followed by contrast material(s) and further sequences. Which CPT code represents this MRI procedure?

Answer: B. 70553

Explanation:

The CPT code 70553 describes an MRI of the brain, without contrast, followed by contrast material(s) and further sequences.

71. Which CPT code corresponds to the incision and drainage of an abscess or cyst of the palate or uvula?

Answer: B. 41005

Explanation:

The CPT code 41005 represents the incision and drainage of an abscess or cyst of the palate or uvula.

72. The 'mitral valve' is located in which organ?

Medical Coding Ace

Answer: D. Heart

Explanation:

The mitral valve, also known as the bicuspid valve, is one of the four valves in the heart. It's located between the left atrium and the left ventricle.

73. Which CPT code describes an X-ray examination of the knee, with a minimum of four views?

Answer: B. 73564

Explanation:

The CPT code 73564 is used for an X-ray examination of the knee with a minimum of four views.

74. Which organ produces bile that helps in the digestion of fats?

Answer: B. Liver

Explanation:

The liver produces bile, a digestive juice that is required for the breakdown of dietary fats in the small intestine.

Medical Coding Ace

75. According to the ICD-10-CM coding guidelines, when a patient has both an acute and a chronic condition, and both have separate subentries in the index but the guideline requires a code from each, which should be sequenced first?

Answer: A. Acute condition

Explanation:

According to the ICD-10-CM coding guidelines, if the same condition is described as both acute (subacute) and chronic, and separate subentries exist in the ICD-10-CM Alphabetic Index at the same indentation level, the acute (subacute) condition is sequenced first.

76. In the ICD-10-CM, what does the placeholder 'X' in a code mean?

Answer: B. The code needs a 7th character extension

Explanation:

In the ICD-10-CM, the placeholder 'X' is used for certain codes to allow for future expansion and to fill in empty characters when a code requires a 7th character extension.

77. A patient is provided with a basic manual wheelchair for mobility due to a leg injury. Which HCPCS Level II code corresponds to this device?

Medical Coding Ace

Answer: A. K0001

Explanation:

The HCPCS Level II code K0001 is used for a standard wheelchair. This wheelchair is designed for patients who need basic mobility assistance due to temporary or permanent mobility challenges.

78. A physician performs a preventive medicine evaluation and counseling for an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of appropriate immunization(s), laboratory/diagnostic procedures for a patient aged 40-64 years. Which CPT code represents this service?

Answer: B. 99386

Explanation:

The CPT code 99386 is used for the preventive medicine service described for a patient aged 40-64 years.

79. According to the ICD-10-CM guidelines, which of the following is NOT a reason to use an external cause code?

Medical Coding Ace

Answer: C. To provide additional information about the patient's lifestyle

Explanation:

External cause codes in the ICD-10-CM are used to provide additional details about how an injury or health condition occurred and the location, but they are not used to provide details about the patient's lifestyle.

80. A patient requires anesthesia for a procedure on the anterior trunk. Which CPT code corresponds to this service?

Answer: B. 00402

Explanation:

The CPT code 00402 is used for anesthesia during a procedure on the anterior trunk.

81. Which CPT code corresponds to the removal of an ectopic thyroid tissue, without thyroidectomy?

Answer: C. 60281

Explanation:

The CPT code 60281 describes the removal of ectopic thyroid tissue, without thyroidectomy.

Medical Coding Ace

82. Which term refers to the surgical removal of the appendix?

Answer: A. Appendectomy

Explanation:

Appendectomy is the medical term that refers to the surgical removal of the appendix. It's a common emergency surgery to treat appendicitis, an inflammatory condition of the appendix.

83. A patient requires surgical treatment for a nasal vestibulitis. Which CPT code represents this procedure?

Answer: B. 30110

Explanation:

The CPT code 30110 represents the surgical treatment of a nasal vestibulitis.

84. A surgeon performs a shave biopsy of a single lesion on a patient's leg. What is the CPT code for a lesion that measures 0.6 cm?

Answer: B. 11306

Explanation:

Medical Coding Ace

The CPT code 11306 represents a shave biopsy of the skin for a single lesion on the scalp, neck, hands, feet, or genitals that measures 0.6 cm to 1.0 cm.

85. A patient is diagnosed with an unspecified viral hepatitis without hepatic coma. Which ICD-10-CM code represents this condition?

Answer: A. B19.20

Explanation:

The ICD-10-CM code B19.20 denotes unspecified viral hepatitis without hepatic coma.

86. A patient undergoes a biopsy of the floor of the mouth. Which CPT code describes this procedure?

Answer: B. 41105

Explanation:

The CPT code 41105 represents a biopsy of the floor of the mouth. The other codes describe different oral procedures.

87. A surgeon performs the removal of a foreign body embedded in the hand, without making an incision. Which CPT code should be used?

Medical Coding Ace

Answer: A. 10120

Explanation:

The CPT code 10120 represents the removal of a foreign body from the soft tissues without making an incision.

88. For outpatient coding, when a patient has a condition that is both acute and chronic and there are separate subentries for both in the index, which one should be sequenced first?

Answer: A. Acute condition

Explanation:

For outpatient coding in the ICD-10-CM, when both acute and chronic conditions have separate subentries in the index, the acute condition should be sequenced first.

89. 'Nephropathy' is a term that refers to:

Answer: C. Kidney disease

Explanation:

'Nephropathy' describes any disease of the kidneys.

Medical Coding Ace

90. Which part of the brain is responsible for balance and coordination?

Answer: A. Cerebellum

Explanation:

The cerebellum is responsible for coordinating voluntary movements, balance, posture, and speech, resulting in smooth and balanced muscular activity.

91. A patient diagnosed with obstructive sleep apnea is prescribed a continuous positive airway pressure (CPAP) device. Which HCPCS Level II code pertains to this equipment?

Answer: A. E0601

Explanation:
