1. Complete Timeline of Events

2011: Marth (age ~13) begins playing Mount & Blade. Suicidal ideation. Game “saved his life.”

2012–2016: 30+ clan memberships. Leaderboard records. Clan takeovers. Self-titled “Birth of a Hero.”

June 2017: “Finally finding the love and happiness I have been seeking for forever” — begins online relationship with “Anna,” a 14-year-old German girl. Marth is 19.

2018: Publishes video commemorating 7 years. Admits he would trade all online achievements for real friendships/relationships. Says society “chose his path.” Self-awareness not in question.

Pre-2024: Community reputation for underage girl interest becomes “open secret.” Multiple prior communities document similar patterns. Evidence scattered across Dropbox, unlisted YouTube, Time Machine forums.

15 Feb 2024: Frost files ban request against Marth (thread-1362). Kaiser posts 7-chapter manifesto.

16 Feb 2024: Kaiser posts defense in thread-1332, exposing Napoleon’s racist history and Marth’s fabricated claims.

18 Mar 2024: Bethrezen permanently mutes both Kaiser AND Marth on the same day. Notes Marth’s is “first punishment despite countless server rule breaching.”

2 Sep 2024: Ginga files complaint against Marth (thread-1503). Marth claims he has “safely retired” with 4 season wins.

6 Sep 2024: Sam posts logs showing identical abuse to Jan 2024. Marth muted for second time.

14 Feb 2025: “Hienabagienna” files trolling unmute request (thread-1594) mocking Marth’s appearance, finances, and life circumstances. Rejected.

3. Thread 1332: Mute Request — TheThirdCousinToTheKaiser

URL: nwpublic.eu/thread-1332.html (3 pages)

Filed by: Emperor Napoleon Bonaparte I, 12 January 2024

Subject: TheThirdCousinToTheKaiser (Kaiser / The Craft)

Supported by: Marth (+1), Mahtipallo (+1)

Outcome: Approved — Kaiser permanently muted, 18 March 2024

Napoleon alleged Kaiser was toxic, harassing, racist, and used O-chat to avoid being muted. Marth supported with +1, adding claims of racism, sexism, and homophobia. Kaiser responded with a seven-chapter “manifesto” that: (a) documented Napoleon’s own extreme racist history including Brenton Tarrant shooting references and anti-Muslim slurs; (b) exposed Napoleon’s mask-off explosion when a previous unmute request was rejected; (c) proved Marth fabricated a homophobia claim by providing a screenshot of the alleged victim (Sista_Rexy) directly denying it; (d) caught Napoleon contradicting himself about the “Hitler is based” remark and texture pack crosshair; (e) provided screenshots of his own claims while noting Napoleon and Marth provided almost none.

Admin posted Kaiser’s chat logs showing extensive insults (“subhuman dumbass,” “degenerate,” “schizo lunatic,” graphic sexual remarks about mothers) and Kaiser’s own admission: “I always trigger everyone in here and they bitch out in chat. It’s hilarious” and “I bait people cause it’s fun.” Both sides were documented as toxic; Kaiser was muted same day as Marth.

Key third-party observation — GeneralDragos: “Muting Kaiser wouldn’t resort to making the chat ‘civilised’. It’s just a question of them two to stop arguing all the time for the sake of this community.”

4. Thread 1362: Ban Request — Marth The Gryphonhearted

URL: nwpublic.eu/thread-1362.html (3 pages)

Filed by: frost (1stEB_frost), 15 February 2024

Outcome: Approved — Marth permanently muted, 18 March 2024

Frost identified Marth as “volatile, vindictive and manipulative” and documented the hypocrisy of Marth trying to ban others for behavior he engaged in more severely. Key structural argument: “‘If someone is active they shouldn’t be banned’ is a very broken logic and it is a prime result for real life corruption cases.” Frost also identified Marth’s pattern of targeting specific individuals through the forum: Sarissa, Kaiser, and others.

Admin Bethrezen posted server chat logs from January and March 2024 showing daily abuse including death threats (“kys,” “I’ll kill you irl,” “you should die irl”), ethnic targeting (Romanians, Poles, Germans, Danes, Spanish), homophobic slurs, and the line “I didn’t give you the right to speak.” Admin noted this was “first punishment despite countless server rule breaching.”

Marth’s own response in the thread: “I do not claim to be innocent, yet I do not think that any of the things I have done or said should result in a mute or a ban.” Closed with “Here’s hoping for a brighter future without any hatred towards each other.” When confronted with screenshot evidence, his response was: “Looks photoshopped to me laddie.”

5. Thread 1384: Unmute Request — Marth The Gryphonhearted

URL: nwpublic.eu/thread-1384.html

Filed by: Marth, 4 April 2024 (17 days after permanent mute)

Outcome: Approved — unmuted same day

Marth submitted a strategic apology calling his mute “entirely justified,” claiming the logs were “a shocking reality check,” apologizing to “every single person I have ever said anything negative about,” while simultaneously framing his behavior as reactions to bullying. Included a poem. Admin Supereagle endorsed unmute, noting “Chat GPT poems.” Bethrezen unmuted him within hours: “You will be given a second chance, please don’t waste it.”

Sarissa’s response: “?????” Vapuro’s response: “Why was he unmuted when he still insulted peeps in discord on a daily???? He obviously still can’t control himself.”

The “permanent” mute lasted 17 days. The promise to change was contradicted by continued Discord abuse (per Vapuro) and by identical in-game behavior documented in threads 1457, 1489, and 1503 over the following five months.

6. Thread 1457: Ban Request — Polish_Master_Race

URL: nwpublic.eu/thread-1457.html (3 pages)

Filed by: Marth, 24 July 2024

Against: Polish_Master_Race (PulkownikAndrzejKmicic)

Outcome: Approved — Pulkownik banned, 30 August 2024

Marth filed with no screenshots (“logs will definitely support me”). Attempted to blackmail an apology: “I recommend you don’t make this even worse for yourself and just accept that you’ve done something wrong, maybe apologise to me and promise not to do it again, then I can consider dropping the whole thing.”

Pulkownik’s response identified Marth’s rhetorical pattern: “You start your post in a pretentious tone, make allegations, then claim the moral high ground and try to blackmail me into apologising.” Also noted Marth had laughed at concentration camp jokes minutes before filing a racism complaint. Pulkownik’s final post articulated the structural futility of the governance system: “Go ahead and ban me already... The keys are dirt cheap. I will just change my identity and no one will be any wiser.”

7. Thread 1489: Counter-Complaint — kk_HLI_Marth

URL: nwpublic.eu/thread-1489.html (3 pages)

Filed by: PulkownikAndrzejKmicic, 22 August 2024

Against: Marth

Outcome: Closed without resolution. Pulkownik banned in Marth's thread instead.

Pulkownik documented Marth's continued death threats, Auschwitz jokes, and harassment since his April unmute. Identified that Marth's friends were becoming admins: "I see just how many of Marth's friends applied to become admin and got accepted. This doesn't bode well for people he dislikes."

Marth offered to drop his complaint against Pulkownik if Pulkownik dropped his — reducing the forum system to a hostage exchange. Reggie defended Marth, saying he had "turned things around." Admin Sam's handling oscillated between professional and antagonistic toward Pulkownik. Final verdict: Pulkownik banned ("You're gone from this community... I don't really care about your emo story m8"), Marth's complaint approved, Pulkownik's complaint closed.

This is the clearest documented instance of the forum system being used to punish the person who complained about Marth while rewarding Marth's own complaint.

8. Thread 1503: Ban Request — Marth (Ginga)

URL: nwpublic.eu/thread-1503.html

Filed by: Ginga, 2 September 2024

Outcome: Approved — Marth muted for second time, 6 September 2024

Marth's response contained his exit narrative: "I wanted to have 4 season wins under my belt, now I have it and can safely retire." Also boasted: "I have gotten two people banned so far and both were justified" and "I've made Minisiege a way better place already with adding new maps and getting rid of people who were bad for the community."

Admin Sam posted logs from September 2, 2024:

18:18:35	-	[kk_HLI_Marth]	cunt
18:18:38	-	[kk_HLI_Marth]	bitch
18:18:41	-	[kk_HLI_Marth]	whore

18:27:38	-	[kk_HLI_Marth]	we rape Russians for breakfast
18:28:55	-	[kk_HLI_Marth]	Grayfeem I will end you
18:29:08	-	[kk_HLI_Marth]	I'll have Manul send a rocket straight to your house
18:30:11	-	[kk_HLI_Marth]	and I'm gonna rub it in your face AND in your mom's pussy when I win this season
18:31:29	-	[kk_HLI_Marth]	kys
18:33:00	-	[kk_HLI_Marth]	1 on 1 I'd fuck you all the way back to your mother's womb you stupid whore
18:33:37	-	[kk_HLI_Marth]	This faggot doesn't even deserve to live
18:35:04	-	[kk_HLI_Marth]	I hate you because you're undeserving of your skin
18:35:07	-	[kk_HLI_Marth]	undeserving of your life
18:38:43	-	[kk_HLI_Marth]	If I were admin here I'd ban you without hesitation
18:39:31	-	[kk_HLI_Marth]	Uncivilized people aren't worth my time
18:41:24	-	[kk_HLI_Marth]	Make like your comrades on the front and retire with a bullet in your ass

These logs are from five months after Marth's unmute and strategic apology promising to "change my ways and think twice." The language, triggers, and escalation pattern are identical to the January 2024 logs that earned his first mute.

9. Thread 1594: Aftermath — Unmute Request (Feb 2025)

URL: nwpublic.eu/thread-1594.html

Filed by: hienabagienna, 14 February 2025

Outcome: Rejected ("Nice copy-pasta but you won't get unmuted")

A trolling unmute request that nevertheless documents Marth's enduring community reputation: "Marth is an ugly guy who has a shit and lonely life + he's broke." "For some people there is no hope in life and all they can really do is spend the rest of their life rotting in an online game, become admin and feel some pleasure from that. Or make a bunch of arty maps and farm kills to 'achieve' top1 in kills."

Demonstrates that community knowledge of Marth's personal circumstances and behavioral patterns persisted as folklore over a year after the original complaint.

10. Admin Chat Logs: Complete Record

Note: The kill log entries (showing Marth being killed immediately before his outbursts) were included by Sam to demonstrate that the abuse was triggered by in-game deaths. The pattern is identical to the January 2024 logs: being killed triggers immediate escalation to death threats and eliminationist language within seconds.

11. Key Analytical Observations

Behavioral consistency across 13 years

The patterns documented in 2024 (grandiosity, rage when killed, clan/community domination, exit narratives framed as achievement) are identical to those Marth documented about himself in his 2017 career post covering 2011–2017. The self-titling (“Birth of a Hero”), deliberate destruction of rivals’ infrastructure, and accumulation of praise are continuous.

Forum weaponization pattern

Across the documented period, Marth filed or supported complaints against Kaiser (thread-1332), Pulkownik (thread-1457), and previously Sarissa. In each case, the accused person had criticized or challenged Marth. The forum’s complaint system was used as a tool for targeting personal enemies, not community enforcement. Frost, Kaiser, Sarissa, and Pulkownik all identified this pattern independently.

Strategic persona management

Marth’s forum posts demonstrate articulate, measured, conciliatory communication that contrasts sharply with concurrent in-game chat abuse. The unmute apology (thread-1384) was accepted at face value despite a community member noting simultaneous Discord abuse. The “permanent” mute lasted 17 days.

Institutional capture

Pulkownik observed that Marth’s friends were becoming admins. Admin Supereagle endorsed Marth’s unmute. Reggie defended Marth across multiple threads. Sam’s handling of the Pulkownik case resulted in banning the complainant while approving Marth’s complaint. Discord sources confirm current and former admins continue to defend Marth.

The contributions defense

Marth’s map-making was cited in his defense across multiple threads. Frost identified this as corrupt logic. Pulkownik dismantled it: “It’s not like the server suffers from a shortage of maps.” Marth himself used it openly: “I’ve made Minisieg a way better place already with adding new maps and getting rid of people.”

Exit narrative consistency

Marth framed both potential departures as voluntary achievements: “I wanted to have 4 season wins under my belt, now I have it and can safely retire” (Sep 2024). This matches my description of his departure from Minisieg framed as having “achieved everything” across platforms. The same pattern appears in his 2017 career post: departures are always narrated as completions.

Predatory concerns

The June 2017 career post documents a relationship with a 14-year-old (“Anna”) when Marth was 19. The Lazarus Order forum has been vandalised with references to pedophilia since at least 2021. Community members from earlier communities report Marth solicited images from minors and discussed age of consent laws. The catfishing incident referenced in community knowledge is consistent with this pattern. These remain circumstantial/hearsay and are not prosecutable in their current form. Should that ever change and I become aware of stronger evidence, I will notify the relevant authorities post-haste.
